DAILY GAZETTE.

To Put Up Fruit Without Self-Sealing Cans.

Prepare a *cement* of one ounce rosin, one ounce gum shellac, and a cubic inch of beeswax; put them in a tin cup, and melt slowly—too high or quick heat may cause it to scorch. Place the jars where they will become warm while the fruit is cooking. If they are gradually heated there is no danger of breaking.

As soon as the fruit is thoroughly heated, and while boiling hot, fill the jars full, let the juice cover the fruit entirely. Have ready some circular pieces of stout, thick cotton or linen cloth, and spread over with cement a space sufficient to cover the mouth and rim of the jar. Wipe the rim perfectly dry, and apply the cloth while warm, putting the cement side down, bring the cover over the rim and secure it firmly with a string; then spread a coating of cement over the upper surface. As the contents of the jar cool, the pressure of the air will depress the cover, and give most positive proof that all is safe.

The cheapest as well as the most suitable jars for this use (quart size) cost $1.50 per dozen. Queen's or yellow ware has imperfect glazing, and the moisture is forced through the sides of the jar. Self sealing cans that have failed can be pressed into service; stone jars, common bottles, tin cans, and various vessels that every housekeeper has on hand can be made to answer, only be sure that the fruit is boiling hot, and the cover properly adjusted.

Many think that sugar is essential to enable the fruit to keep. This is not so.—"Berries and peaches" are better put up without it. Sugar strewn over them an hour before eating, gives them more the flavor of fruit. Cook only sufficiently to fill two jars at once, to avoid crushing tender berries. Pears and quinces are best cooked in water till tender, putting in as many as will cover the top of the water at one time; when clear and tender, and to the water add sugar to taste; as soon as boiling hot put in the fruit, and when it is penetrated with syrup, put it in jars, and fill it up with syrup boiling hot. Seal as directed. Apples the same way, or cooked in water only, and secured. Let them be in quarters, for, if mashed, the pulp will hold so many air-bubbles it will not keep.

Grapes. Pulp and cook till the pulp are melted; strain out the seeds; put in the skins, and when well cooked, add sugar to taste. When the syrup is sufficiently thick seal.

Plums are put in with or without pits, as one chooses.

Tomatoes are cooked till all the lumps are dissolved, and the mass quite thick.

Sweetmeats of any kind, secured in this way, will keep for years. If required for transportation, perhaps it would be well to use close fitting corks, cut off even with the cemented cloth, otherwise corks are not necessary.

Vegetables. Squash is steamed in pieces. *Cauliflower* cooked as for the table; fill jars while the articles are hot, and fill up with boiling water; let the jars remain in a kettle of boiling water for a while to expel any air that may have lodged while filling. When no air escapes, seal up with jars in the kettle; when cool remove them.

Green Peas and Green Corn seem to possess a fermenting principle, which is not destroyed by a degree of heat sufficient to secure them apparently as well as *fruit.* To keep them, I have tried various methods; all fail except drying or putting in salt.

By this method of self sealing, provision can be made in years of plenty for those times when fruit fails, and with less labor and a certainty of success that no other method possesses.—*Godey*

QUANTRELL, THE BRIGAND.—The infamous monster who perpetrated the inhuman massacre at Lawrence, is, we believe, a native of Maryland. At any rate, he once lived in Cumberland, in that state, and there attempted to kill his wife. For this he was placed in jail, where he raged and roared like a wild beast. He finally made his escape to Kansas, where, for a time, he was known as a Free State man, and, as such, took part in the Kansas war in 1855 and 1856, and also in the border fights in 1861. For some reason he became estranged from the Union cause, and espoused that of the rebellion, and took up the pursuit of bushwhacking. He is a skillful partisan leader, bold, daring, and as merciless as a hyena. About a year ago he was surprised at night, with a small band of followers, by a squad of federal troops, near Independence. His companions were either killed or captured, but he managed to escape in the darkness, by plunging into the Missouri and swimming to the opposite shore, stopping at times to heap the savagest curses upon his pursuers. With a large force of experienced border fighters now on his track, his escape is hardly possible. He will probably be overtaken; and when overtaken, his shrift will be a short one.

The sale of Fairbanks' scales the present year, particularly at the west, has been largely in advance of any previous year during the whole history of the Messrs. Fairbanks' business, which shows the unusual prosperity of those branches of business in which weighing is done, and also the increasing popularity with the public of these celebrated scales.

THERE is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion, also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY.

Who take pleasure in placing their Machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantage of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine

Any correspondence regarding our Machines will be promptly answered. Enclose a Letter Stamp and we will send circular and sample of work by return mail.

To Put Up Fruit Without Self-Sealing Cans.

Prepare a cement of one ounce rosin, one ounce gum-shellac, and a cubic inch of beeswax; put them in a tin cup, and melt slowly—too high or quick heat may cause it to scorch. Place the jars where they will become warm while the fruit is cooking. If they are gradually heated there is no danger of breaking.

As soon as the fruit is thoroughly heated, and while boiling hot, fill the jars full, let the juice cover the fruit entirely. Have ready some circular pieces of stout, thick cotton or linen cloth, and spread over with cement a space sufficient to cover the mouth and rim of the jar. Wipe the rim perfectly dry, and apply the cloth while warm, putting the cement side down, bring the cover over the rim and secure it firmly with a string; then spread a coating of cement over the upper surface. As the contents of the jar cool, the pressure of the air will depress the cover, and give most positive proof that all is safe.

The cheapest as well as the most suitable jars for this use (quart size) cost $1.50 per dozen. Queen's or yellow ware has imperfect glazing, and the mosture is forced through the sides of the jar. Self sealing cans that have failed can be pressed into service; stone jars, common bottles, tin cans, and various vessels that every housekeeper has on hand can be made to answer, only be sure that the fruit is boiling hot, and the cover properly adjusted.

Many think that sugar is essential to enable the fruit to keep. This is not so.—"Berries and peaches" are better put up without it. Sugar strewn over them an hour before eating, gives them more the flavor of fruit. Cook only sufficiently to fill two jars at once, to avoid crushing tender berries. Pears and quinces are best cooked in water till tender, putting in as many as will cover the top of the water at one time; when clear and tender, and to the water add sugar to taste; as soon as boiling hot put in the fruit, and when it is penetrated with syrup, put it in jars, and fill it up with syrup boiling hot. Seal as directed. Apples the same way, or cooked in water only, and secured. Let them be in quarters, for, if mashed, the pulp will hold so many air-bubbles it will not keep.

Grapes. Pulp and cook till the pulp are melted; strain out the seeds; put in the skins, and when well cooked, add sugar to taste. When the syrup is sufficiently thick seal.

Plums are put in with or without pits, as one chooses.

Tomatoes are cooked till all the lumps are dissolved, and the mass quite thick.

Sweetmeats of any kind, secured in this way, will keep for years. If required for transportation, perhaps it would be well to use close fitting corks, cut off even with the cemented cloth, otherwise corks are not necessary.

Vegetables. Squash is steamed in pieces. *Cauliflower* cooked as for the table; fill jars while the articles are hot, and fill up with boiling water; let the jars remain in a kettle of boiling water for a while to expel any air that may have lodged while filling. When no air escapes, seal up with jars in the kettle; when cool remove them.

Green Peas and Green Corn seem to possess a fermenting principle, which is not destroyed by a degree of heat sufficient to secure them apparently as well as fruit. To keep these, I have tried various methods; all fail except drying or putting in salt.

By this method of self-sealing, provision can be made in years of plenty for those times when fruit fails, and with less labor and a certainty of success that no other method possesses.—*Godey.*

QUANTREL, THE BRIGAND.—The infamous monster who perpetrated the inhuman massacre at Lawrence, is, we believe, a native of Maryland. At any rate, he once lived in Cumberland, in that state, and there attempted to kill his wife. For this he was placed in jail, where he raged and roared like a wild beast. He finally made his escape to Kansas, where, for a time, he was known as a Free State man, and, as such, took part in the Kansas war in 1855 and 1856, and also in the border fights in 1861. For some reason he became estranged from the Union cause, and espoused that of the rebellion, and took up the pursuit of bushwhacking. He is a skillful partisan leader, bold, daring, and as merciless as a hyena. About a year ago he was surprised at night, with a small band of followers, by a squad of federal troops, near Independence. His companions were either killed or captured, but he managed to escape in the darkness, by plunging into the Missouri and swimming to the opposite shore, stopping at times to heap the savagest curses upon his pursuers. With a large force of experienced border fighters now on his track, his escape is hardly possible. He will probably be overtaken; and when overtaken, his shrift will be a short one.

The sale of Fairbanks' scales the present year, particularly at the west, has been largely in advance of any previous year during the whole history of the Messrs. Fairbanks' business, which shows the unusual prosperity of those branches of business in which weighing is done, and also the increasing popularity with the public of these celebrated scales.

FLORENCE SEWING MACHINE.

OVER THE POST OFFICE.

THERE is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY,

Who take pleasure in placing their Machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantage of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our Machines will be promptly answered. Enclose a Letter Stamp and we will send circular and sample of work by return mail.

Progress at Charleston.

Fort Moultrie has been attacked by the navy, and the approaches are so close to Wagner that the final assault must soon come. All reports are favorable to final success in the reduction of Charleston.

Jeff. Davis' Call for Slaves.

The New York Tribune correspondence from Washington communicates to that paper the contents of a letter, written recently in Richmond, which gives an account of the manner in which the question of arming the slaves has been introduced into the politics of the south. It is said not to be a new subject in the confederacy. As long ago as the campaign on the peninsula, fearing that the federal army would capture Richmond, the planters proposed to arm their slaves. It is said, also, that Jeff. Davis and his cabinet were at that time in favor of it, having been urged to adopt the policy by the cabinets of Europe who were friendly to the confederacy. But public opinion in the south, flattered by their successes at that time, would not permit its adoption. Since their recent misfortunes, and being closely pressed by the federal forces at Charleston and Mobile, Beauregard and Gov. Shorter, of Alabama, have asked for the privilege of arming a few negro regiments for the defence of those cities; and finally, it is stated by this writer, Jeff. Davis has recently consulted the governors of the rebel states, and that they, in conjunction with the rebel cabinet, have decided to call into the field 400,000 blacks, offering them their freedom and forty acres of land. They expect by this course to obtain a new army, and at the same time so influence European cabinets in their favor, as to cause them to recognize the confederacy.

This statement, although represented as genuine facts, may be mere speculation. Doubtless the confederates, as a last resort, would take this step, rather than submit to defeat and subjugation. Whether they have arrived at that point, and whether the negroes will have confidence enough in the oppressors of their race, to voluntarily enter into this arrangement, are questions to be solved. In the mean time, it cannot be said that we have offered the boon of freedom to the slaves too soon, but rather that we have delayed it and the invitation to enter our military ranks, too long. In the competition for the service of the blacks they are likely at last to hold a commanding position, and no doubt will insist that freedom for the whole race, male and female, shall follow their decision; such is the condition of both parties to the contest, they are likely to obtain what they have so long ardently desired.

Great Union Meeting at Springfield.—There was an immense Union meeting at Springfield Ill., on Thursday. The number present is estimated at thirty or forty thousand. The enthusiasm of the people for the Union and a vigorous prosecution of the war was unbounded.

Union Victory in California.—Returns from the election in California, which occurred on the 2d inst., indicate the success of Low, unionist, by a majority of 20,000. All the towns heard from elect Union legislative tickets. The Union majority in San Francisco will average 7,000.

Mr. Noyes, in his book of "Sketches of the War," tells the best story we have seen of the way Yankee coolness puts down female insolence in rebeldom. A splendidly besilked and befeathered female of the Jeff Davis flock, in passing one of our soldiers, gave the skirt of her dress the usual flirt, to show her contempt of the tribe, and the soldier replied by the following bit of torture:

"Why, marm, how dirty your stockings are! Just look at 'em!" Down went female skirts and female pride at the same instant, while a hearty laugh from his comrades winged the sarcastic shaft and sent it well home.

The copperheads of this county say the proprietors of the Star are traitors to the democratic party. We have the satisfaction of knowing that we are not traitors to our country.—*Hudson Star (dem.)*

Correspondence of the Daily Gazette.

From the Thirty-Third Regiment.

Natchez, Miss., Aug. 24, 1863.

Editors Gazette:—My last letter was written while at Jackson, with the redoubtable Johnston in our front; but it probably never reached you, as our mail was destroyed a time or two while on that expedition, to prevent its falling into the hands of guerrillas. In that letter I gave you a detailed account of the engagement of our brigade with the enemy, and its disastrous result—how it fought four rebel brigades, behind the best rifle pits I ever saw, and supported by twelve pieces of artillery; how it charged the enemy's works and caused them to limber their guns to the rear; how its line of battle was at length broken, and how it was repulsed from the "jaws of death." For the numbers engaged, no conflict more deadly has taken place during the war. In desperate courage it reminds one of the "Charge of the Six Hundred." For a moment they paused.

"When up came one who knew that some one had blundered,
Forward the First Brigade!"

And they did forward; alas! how many to certain destruction. One thousand as brave men as ever fought, marched to the "imminent deadly breach," on Tuesday, the 12th of July, 1863, and of their number, five hundred and twenty were left killed or wounded on the fatal field. Three regiments only of our brigade were engaged, together with one section of the 3d Ohio battery—the 33d having been sent to the right to prevent any flank movement by the enemy, escaped without losing a man or firing a gun. Gen. Lauman, looked upon as having committed an act of temerity, was immediately relieved of his command of the 4th division.

After falling back to Vicksburg, Gen. Crocker was assigned to this command, and the division transferred to the 17th army corps, Maj. Gen. McPherson commanding. Soon after, we were ordered to this post, but did not reach here until the 19th instant. Gen. Crocker will relieve Gen. Ransom, in command of the post. Natchez is a beautiful place, clean and neat, with well ordered streets. It has suffered very little from the effects of the war, and everything presents an appearance of a degree of comfort and prosperity. Most of the inhabitants are still here, stores are open, mills are running, and a fine market, where large quantities of fruits and vegetables may be obtained at a reasonable price. The place strongly reminds one of an eastern village, though it is said to contain eight thousand inhabitants. It is built on ground high and commanding, and for healthiness of location is not excelled in this part of the country. We shall probably remain here two months, so that our men will have ample time to recruit their worn out energies. About twenty per cent. of every company are on furlough, while Capt. Scott and Lieut. Stark are on leave. They are due here on the 30th inst., when I shall probably be permitted to go north for twenty days. I believe it is the intention to furlough five per cent of the army every thirty days until the entire army is furloughed. We are expected to fortify this place so that the force required to hold it may be greatly reduced. I shall endeavor to be less direlict in future than I have been in the past, and try to keep you "up" in our movements. More anon. J. H. S.,
Co. F, 33d W. V. I.

Last Night's Report.

New York, Sept. 3.

At a meeting of the officers of the city banks and Cisco's Exchange Bank, to-day, a proposition was submitted to the banks for a $35,000,000 loan to the government. The Boston and Philadelphia banks will be asked for an additional $50,000,000, the whole to be paid in October and November.

Cairo, Sept. 3.

Special to the Journal.—The steamer J. C. Swan has arrived up. From Memphis papers we have news from Arkansas.

Our troops are in fine spirits. A reconnoitering expedition had gone to Lake's Bluff, above Duvall's Bluff. There was a small rebel force there, which made resistance. Our troops dispersed them. The rebel loss is considerable. Ours light.

A force went last week to capture Brownsville. They did it after a brief fight. Brownsville is the county seat of Prairie county, about thirty miles northeast of Clarendon, and thirty-two east of Little Rock.

The Chancellor, from New Orleans, was fired into thirty miles above Baton Rouge by guerrillas. Nobody hurt.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DISPATCHES.

New York, Sept. 4.

The Tribune has the following:

Headquarters Army of the Potomac, September 3d, 1863.

Information having been received that a naval expedition was to be sent up the Rappahannock to retake the gunboats Satellite and Reliance, Gen. Kilpatrick was directed to move down with his cavalry division and co-operate in such a manner as circumstances might require. In accordance with these instructions Kilpatrick moved, yesterday morning, to the vicinity of Corbin's Neck, where the captured gunboats were lying, causing the rebel cavalry in his neighborhood to hastily ford the river. *Finding that no gunboats appeared* to engage the Reliance and Satellite, he ordered the batteries of Eldor and Fuller to open upon them. The boats were moored to the shore opposite Corbin's Neck, and having no steam up they were unable to escape. They were thoroughly riddled and disabled and can never again be used by the enemy. The enemy played upon our forces for a short time with a few field pieces without damage, but were speedily quieted. These boats were merely tugs altered for navy business.

Scouting parties of infantry and cavalry combined are in the habit of leaving Gen. Corcoran's command. Yesterday they chased a small body of guerrillas and finding a house concealing captured suttler stores, set it on fire. Deserters now coming in report Lee's army is generally discussing another raid across the Potomac. There must have been certain indications or expressions dropped by those high in command to warrant the assumption of the reported demonstration. Lee's army is much exaggerated. It is again in excellent fighting condition. Desertions are far less numerous than stated, both to the mountains and our lines.

New York, Sept. 4.

The Tribune's dispatch says it is ordered that a premium of two dollars be paid for accepted recruits for the regular army, and volunteers shall also be paid for accepted colored recruits. The recruit is himself entitled to this premium if he presents himself to the recruiting officers.

The Times' dispatch says a distinguished officer in the Army of the Potomac has sent in word that Lee has not given the slightest evidence of a purpose to move his forces. On the other hand he is waiting for the result of the operations of Rosecrans, Gilmore and Burnside. The opinion prevails among the most intelligent of our officers at headquarters that if these operations are successful, Lee will propose terms of surrender, and endeavor to bring the war to a close.

The following extraordinary statement is addressed to the New York Times, in which paper it appears this morning:

Philadelphia, Tuesday, Sept. 1.

Having just returned from the city of Richmond, where I have been over one year, I wish you would give the following publication in your valuable journal: I have, during my stay in Richmond, made the intimate acquaintance of J. Lane, Captain in the confederate army, and son of Gen. Joe Lane of Oregon, who is well informed, and who assured me that the late invasion of the north by Lee and Morgan were made upon the earnest and undoubted representations of that true southern man, Vallandigham, who assured Jeff Davis and his cabinet that the north was ripe for a revolution, and only waited the appearance of the southern army to proclaim for Jeff Davis and forsake Lincoln. Mr. Vallandigham's representations were corroborated by the tone of the majority of the northern journals, who surely would not denounce the administration so badly, except by the assurance of having the masses strongly in their favor. I have sent a copy of this note to the Cincinnati Enquirer.

Respectfully yours, Henry Reimish.

Washington, Sept. 3.

Herald's special.—The statement that Commissioner Ould has terminated negotiations for the exchange of prisoners, by positive declaration that white officers of colored regiments will not be released or exchanged, is premature. Negotiations are still in progress, and no definite result yet reached. In the meantime no exchange of enlisted men has yet taken place, but both parties continue to release or parole small numbers of this class of prisoners.

Notwithstanding the vigilance of the Potomac flotilla, smuggling is carried on to a considerable extent. A flat boat has been engaged some time in transporting contraband goods across the river at Deep Hole farm, between Occoquain and Dumfries, from which point articles are hastily removed into the interior, and sold at most exorbitant rates. At Dumfries, the landing place, common salt is sold at $12 per bushel.

A headquarter's dispatch to the Times says guerrilla operations continue. The last depredation was from the vicinity of Harwood Church, Stafford's store and Dumfries. A mail party of eight were attacked on the road between Warrenton Junction and Harwood one day last week, and four of them, including the mail, captured.

A member of Gen. Kilpatrick's body guard was killed a few days ago by guerrillas, when the whole body guard obtained permission to hunt guerrillas. They have been gone three days, and their success may be estimated by a number of guerrilla carcasses suspended as scare crows from tall trees on their line of march.

Cincinnati, Sept. 4.

Quite an excitement was created in Dayton last night over the arrest, by the military authorities, of two men named Huber and Spelman, for the murder of Lt. Waterman. The civil authorities demanded them for trial upon a writ of *habeas corpus*, but the provost marshal, under instructions from Gen. Cox, refused to surrender them. The militia have been called into requisition to take them by force.

The Commercial's special from Rosecrans' army represents all quiet; 40 or 50 deserters come in daily since the army crossed the river. The bridge at Bridgeport is repaired and trains crossing. The country south of the river is rough and roads bad. The rebel force still occupy a strong position. Deserters think we will have no fight at Chattanooga.

AFTERNOON DISPATCHES.

New York, Sept. 4.

The schooner Ette, lately arrived from Nassau with pine apples, proves to be the pirate Retribution, and was seized yesterday.

The steamer City of the South, from Charleston bar, arrived to-day. Also the steamer Union, 31st. On Monday the iron-clads moved towards Sullivan's Island abreast of Fort Moultrie, and opened fire. The fort replied, assisted by the battery on Sullivan's Island, Wagner and Gregg.—Gilmore's battery kept firing at Wagner. Sumter was silent, though the rebel flag waved over the ruins. The result of the attack was unknown when the steamer left. Passengers aboard the Union report that Wagner was silenced and the iron-clads passed by Fort Moultrie without hindrance from Wagner.

An ensign of the fleet, while on night duty, had went up to the city without finding any appearance of obstructions. The impression prevails that our fleet could pass up to Charleston by a dash.

Fort Monroe, Sept. 3.

Special correspondence of the Baltimore American says the steamer Spaulding arrived from off Morris Island Monday noon. Stormy weather for two days had checked the naval operations. Every thing was in readiness to continue the attack as soon as the weather was favorable. When the Spaulding left the Weehawken was shelling Ft. Gregg. The rebels raised another gun on the ruins of Sumter, Saturday, but on Sunday Gilmore's batteries dismounted it, damaging the front of the parapet. Operations go on more vigorously. The approaches are so close to Wagner that the combatants throw shell and grenades at each other. Wednesday, we drove the rebels from the rifle-pits on the left, advancing the line, capturing 78 prisoners. Dahlgren is confident of success.

St. Louis, Sept. 4.

The Copperheads and the Soldiers.

The copperheads are trying to devise ways and means to get a part of the soldiers' votes. Some of their papers are suggesting that documents should be prepared for circulation in the army, to show that the attitude of the democratic party is a loyal and proper one. As if such flapdoodle would deceive anybody! Among other devices, we understand they have published a lithograph—it ought to have been copperplate—likeness of Mr. Palmer, with the following sentence under it:

Resolved, That we are proud of the gallantry and devotion of our fellow-citizens serving in the land and naval forces of the United States, and sympathize deeply with all their sacrifices of life, health and comfort. End as the war may, their place in history is one of glory.

We would suggest a far more appropriate inscription. If the lithograph is for circulation among the soldiers let it bear as an inscription the following:

[Extract from the Wisconsin Assembly Journal, Sept. 23, 1862.]

"No. 11, S., A bill to enable the militia and volunteers, when in the military service of the United States or of this state to exercise the right of suffrage,

"Was read a third time.

"The question being, Shall said bill be concurred in?

[Here, in order to save room, let it be briefly stated that four pages of the assembly journal are occupied by motions to adjourn, for calls of the house, and similar motions, designed to prevent action on the bill—that all these motions were made by democrats, and were voted for by H. L. Palmer—and that H. L. Palmer spoke in opposition to the passage of the bill for two hours and a quarter. Then let the quotation from the official record be resumed:]

"The main question being, shall said bill No. 11 be concurred in,

"Said bill was concurred in by the following vote:

"Messrs. Adams, Arnold, Bannister, Barnes, Barron, Bassett, Bates, Beardsley, Bean, Bowman, Brandon, O. Brown, Chandler, Combs, Crosby, Dockstader, Field, Guernsey, Hall, Hammond, W. E Hanson, S. Hanson, Hather, Howard, Hubbard, Johnson, Latham, Leonard, McDill, Mutts, Miller, Mills, Moore, Morrow, Newick, Nichols, E. Palmer, Pope, Reed, Rounseville, Sanderson, Stamm, Starks, Stevens, Stoddard, Stuntz, Taylor, Thompson, Upham, Vivian, Webb, and Williams—52.

"Those who voted in the negative were

"Messrs. Aber', Barry, Boyd, G. W. Brown, Butler, Canill, Catton, Coles, Dutcher, Elliot, Ellis, Finger, Gage, Gifford, Gregory, Griffin, Hoffinger, Hogan, Hoppock, Jennings, Kirchloff, McCollum, McLean, Maloy, Meyer, Piatto, Rogan, Salter, Sanborn, Semman, Schletz, Shumway, Stowell, H. S. Thomas, J. E. Thomas, Tripp, Venderpool, Wadsworth, Wilson, and Mr Speaker [H. L PALMER]—40."

To this it might be added that every man who voted against soldiers' suffrage was a democrat.

The Jesuitic lineaments of Mr. Palmer, with this record attached, would undoubtedly make an impression upon the minds of our gallant Wisconsin boys in the field.—*Madison Journal.*

Dispatch to the New York Tribune.

Washington, Aug. 30.

It is rumored among politicians in Richmond that Robert M. T. Hunter will be sent to Mexico, as the representative of the southern confederacy, in order to prepare the way for an offensive and defensive alliance between the emperor of that country and the government of Richmond. It is said that this gentleman has received instructions for the immediate recognition of the future emperor of Mexico, in return for which, it is hoped, his majesty will be led to recognize the southern confederacy.

Mr. Robert M. T. Hunter is now at Paris, where he was sent nearly two months ago by his government, with a *special mission* to the emperor of the French. The principal object of his visit there is, however, to act conjointly with Mr. Slidell, in all matters appertaining to the Mexican question; to give his support to the action of France, Austria, England, or Spain, having the defeat of the Monroe doctrine for its end, and to promise the co-operation of the rebel cabinet in all measures tending to counteract the policy of the federal government in the Mexican question.

Mr. Hunter will leave for Europe and will accompany the emperor of Mexico to his capital as soon as the candidate for that throne shall assume the government of his dominion.

The Way Gillmore's Marsh Battery was Constructed.—A correspondent says:

The famous marsh battery, which is one of the many proofs of Gen. Gillmore's daring and energy, to the surprise of the Charlestonians, *commands* their houses and homes, to say nothing of the other ordnance. The battery is in the midst of the marsh, 2 000 yards in advance of Morris Island—was located at night by the men making their way to it on their stomachs. A path, two planks wide, was then constructed, which was hid from rebel observation by the marsh grass. Planks three inches thick were driven down as the substratum; on this were laid several layers; on them logs, and on them boards. In the meantime the ordnance was floated up by night, and sand bags innumerable, from every direction—and one night, a large force piled them up, and, to the surprise of the rebels, a dangerous battery greeted their eyes next morning, in dangerous proximity, as if evoked by the mysterious hand of magic."

Three Things Together.

I. Hon. John Sherman presents the issue made in the nomination of Vallandigham, in the most forcible light. "Here is a convicted traitor," he says, "nominated as the democratic candidate for governor of Ohio. He is opposed to the government; opposed to the war; will not vote a man to suppress the rebellion, and will not vote one dollar to sustain our soldiers. And yet the democratic party calls upon the people to elect this man to be the commander in-chief of the army and navy of Ohio. And this in the midst of a war with the enemies of the country who he was convicted of aiding."

II. At a meeting of the democratic leaders of the party in Milwaukee, held in June last, the only object of which was to annunciate the position of the party, it was resolved in regard to Vallandigham, "that waving all discussion of Mr. Vallandigham's peculiar views, we hold his nomination by the democracy of Ohio for the office of governor of that state, to have been a noble act of popular assertion of popular *right against military despotism.* We cordially hope to see the disgraceful assault upon American rights in his person, culminate in his election to the highest office of his state."

III. In the democratic state convention, held last week, it was

Resolved, That we re-affirm and adopt the address issued by the state convention held September 3d, 1862 *and the resolutions of the mass convention held in Milwaukee, June 25th, 1863, as the settled doctrine of the democratic party of this state.*

Putting the above together makes a clear case that the democratic party of Wisconsin sympathize with, and endorses Vallandigham. Doubtless if they had such a blessed martyr in the state, they would delight to rally around him.—*Commonwealth.*

Progress at Charleston.

Fort Moultrie has been attacked by the navy, and the approaches are so close to Wagner that the final assault must soon come. All reports are favorable to final success in the reduction of Charleston.

Jeff. Davis' Call for Slaves.

The New York Tribune correspondence from Washington communicates to that paper the contents of a letter, written recently in Richmond, which gives an account of the manner in which the question of arming the slaves has been introduced into the politics of the south. It is said not to be a new subject in the confederacy. As long ago as the campaign on the peninsula, fearing that the federal army would capture Richmond, the planters proposed to arm their slaves. It is said, also, that Jeff. Davis and his cabinet were at that time in favor of it, having been urged to adopt the policy by the cabinets of Europe who were friendly to the confederacy. But public opinion in the south, flattered by their successes at that time, would not permit its adoption. Since their recent misfortunes, and being closely pressed by the federal forces at Charleston and Mobile, Beauregard and Gov. Shorter, of Alabama, have asked for the privilege of arming a few negro regiments for the defence of those cities; and finally, it is stated by this writer, Jeff. Davis has recently consulted the governors of the rebel states, and that they, in conjunction with the rebel cabinet, have decided to call into the field 400,000 blacks, offering them their freedom and forty acres of land. They expect by this course to obtain a new army, and at the same time so influence European cabinets in their favor, as to cause them to recognize the confederacy.

This statement, although represented as genuine facts, may be mere speculation. Doubtless the confederates, as a last resort, would take this step, rather than submit to defeat and subjugation. Whether they have arrived at that point, and whether the negroes will have confidence enough in the oppressors of their race, to voluntarily enter into this arrangement, are questions to be solved. In the mean time, it cannot be said that we have offered the boon of freedom to the slaves too soon, but rather that we have delayed it and the invitation to enter our military ranks, too long. In the competition for the service of the blacks they are likely at last to hold a commanding position, and no doubt will insist that freedom for the whole race, male and female, shall follow their decision; such is the condition of both parties to the contest, they are likely to obtain what they have so long ardently desired.

GREAT UNION MEETING AT SPRINGFIELD. There was an immense Union meeting at Springfield Ill., on Thursday. The number present is estimated at thirty or forty thousand. The enthusiasm of the people for the Union and a vigorous prosecution of the war was unbounded.

UNION VICTORY IN CALIFORNIA.—Returns from the election in California, which occurred on the 2d inst., indicate the success of Low, unionist, by a majority of 20,000. All the towns heard from elect Union legislative tickets. The Union majority in San Francisco will average 7,000.

Mr. Noyes, in his book of "Sketches of the War," tells the best story we have seen of the way Yankee coolness puts down female insolence in rebeldom. A splendidly besilked and befeathered female of the Jeff Davis flock, in passing one of our soldiers, gave the skirt of her dress the usual flirt, to show her contempt of the tribe, and the soldier replied by the following bit of torture:

"Why, marm, how dirty your stockings are! Just look at 'em!" Down went female skirts and female pride at the same instant, while a hearty laugh from his comrades winged the sarcastic shaft and sent it well home.

The copperheads of this county say the proprietors of the Star are traitors to the democratic party. We have the satisfaction of knowing that we are not traitors to our country.—*Hudson Star (dem.)*

Correspondence of the Daily Gazette.

From the Thirty-Third Regiment.

NATCHEZ, Miss., Aug. 24, 1863.

Editors Gazette:—My last letter was written while at Jackson, with the redoubtable Johnston in our front; but it probably never reached you, as our mail was destroyed a time or two while on that expedition, to prevent its falling into the hands of guerrillas. In that letter I gave you a detailed account of the engagement of our brigade with the enemy, and its disastrous result—how it fought four rebel brigades, behind the best rifle-pits I ever saw, and supported by twelve pieces of artillery; how it charged the enemy's works and caused them to limber their guns to the rear; how its line of battle was at length broken, and how it was repulsed from the "jaws of death." For the numbers engaged, no conflict more deadly has taken place during the war. In desperate courage it reminds one of the "Charge of the Six Hundred." For a moment they paused,

"When up came an order, that some one had blundered, Forward the First Brigade!"

And they did forward; alas! how many to certain destruction. One thousand as brave men as ever fought, marched to the "imminent deadly breach," on Tuesday, the 12th of July, 1863, and of their number, five hundred and twenty were left killed or wounded on the fatal field. Three regiments only of our brigade were engaged, together with one section of the 3d Ohio battery—the 33d having been sent to the right to prevent any flank movement by the enemy, escaped without losing a man or firing a gun. Gen. Lauman, looked upon as having committed an act of temerity, was immediately relieved of his command of the 4th division.

After falling back to Vicksburg, Gen. Crocker was assigned to this command, and the division transferred to the 17th army corps, Maj. Gen. McPherson commanding. Soon after, we were ordered to this post, but did not reach here until the 19th instant. Gen. Crocker will relieve Gen. Ransom, in command of the post. Natchez is a beautiful place, clean and neat, with well ordered streets. It has suffered very little from the effects of the war, and everything presents an appearance of a degree of comfort and prosperity. Most of the inhabitants are still here, stores are open, mills are running, and a fine market, where large quantities of fruits and vegetables may be obtained at a reasonable price. The place strongly reminds one of an eastern village, though it is said to contain eight thousand inhabitants. It is built on ground high and commanding, and for healthiness of location is not excelled in this part of the country. We shall probably remain here two months, so that our men will have ample time to recruit their worn-out energies. About twenty per cent. of every company are on furlough, while Capt. Scott and Lieut. Stark are on leave. They are due here on the 30th inst., when I shall probably be permitted to go north for twenty days. I believe it is the intention to furlough five per cent of the army every thirty days until the entire army is furloughed. We are expected to fortify this place so that the force required to hold it may be greatly reduced. I shall endeavor to be less direlict in future than I have been in the past, and try to keep you "up" in our movements. More anon. J. H. S.,

Last Night's Report.

NEW YORK, Sept. 3.

At a meeting of the officers of the city banks and Cisco's Exchange Bank, to-day, a proposition was submitted to the banks for a $35,000,000 loan to the government. The Boston and Philadelphia banks will be asked for an additional $50,000,000, the whole to be paid in October and November.

CAIRO, Sept. 3.

Special to the Journal.—The steamer J. C. Swan has arrived up. From Memphis papers we have news from Arkansas.

Our troops are in fine spirits. A reconnoitering expedition had gone to Lake's Bluff, above Duvall's Bluff. There was a small rebel force there, which made resistance. Our troops dispersed them. The rebel loss is considerable. Ours light.

A force went last week to capture Brownsville. They did it after a brief fight. Brownsville is the county seat of Prairie county, about thirty miles northeast of Clarendon, and thirty-two east of Little Rock.

The Chancellor, from New Orleans, was fired into thirty miles above Baton Rouge by guerrillas. Nobody hurt.

To-Day's Report.

(Reported Exclusively for the Daily Gazette.)

MORNING DISPATCHES.

NEW YORK, Sept. 4.

The Tribune has the following:

HEADQUARTERS ARMY OF THE POTOMAC, September 3d, 1863.

Information having been received that a naval expedition was to be sent up the Rappahannock to retake the gunboats Satellite and Reliance, Gen. Kilpatrick was directed to move down with his cavalry division and co-operate in such a manner as circumstances might require. In accordance with these instructions Kilpatrick moved, yesterday morning, to the vicinity of Corbin's Neck, where the captured gunboats were lying, causing the rebel cavalry in his neighborhood to hastily ford the river. Finding that no gunboats appeared to engage the Reliance and Satellite, he ordered the batteries of Eldor and Fuller to open upon them. The boats were moored to the shore opposite Corbin's Neck, and having no steam up they were unable to escape. They were thoroughly riddled and disabled and can never again be used by the enemy. The enemy played upon our forces for a short time with a few field pieces without damage, but were speedily quieted. These boats were merely tugs altered for navy business.

Scouting parties of infantry and cavalry combined are in the habit of leaving Gen. Corcoran's command. Yesterday they chased a small body of guerrillas and finding a house concealing captured suttler stores, set it on fire. Deserters now coming in report Lee's army is generally discussing another raid across the Potomac. There must have been certain indications or expressions dropped by those high in command to warrant the assumption of the reported demonstration. Lee's army is much exaggerated. It is again in excellent fighting condition. Desertions are far less numerous than stated, both to the mountains and our lines.

NEW YORK, Sept. 4.

The Tribune's dispatch says it is ordered that a premium of two dollars be paid for accepted recruits for the regular army, and volunteers shall also be paid for accepted colored recruits. The recruit is himself entitled to this premium if he presents himself to the recruiting officers.

The Times' dispatch says a distinguished officer in the Army of the Potomac has sent in word that Lee has not given the slightest evidence of a purpose to move his forces. On the other hand he is waiting for the result of the operations of Rosecrans, Gilmore and Burnside. The opinion prevails among the most intelligent of our officers at headquarters that if these operations are successful, Lee will propose terms of surrender, and endeavor to bring the war to a close.

The following extraordinary statement is addressed to the New York Times, in which paper it appears this morning:

PHILADELPHIA, Tuesday, Sept. 1.

Having just returned from the city of Richmond, where I have been over one year, I wish you would give the following publication in your valuable journal: I have, during my stay in Richmond, made the intimate acquaintance of J. Lane, Captain in the confederate army, and son of Gen. Joe Lane of Oregon, who is well informed, and who assured me that the late invasion of the north by Lee and Morgan were made upon the earnest and undoubted representations of that true southern man, Vallandigham, who assured Jeff Davis and his cabinet that the north was ripe for a revolution, and only waited the appearance of the southern army to proclaim for Jeff Davis and forsake Lincoln. Mr. Vallandigham's representations were corroborated by the tone of the majority of the northern journals, who surely would not denounce the administration so badly, except by the assurance of having the masses strongly in their favor. I have sent a copy of this note to the Cincinnati Enquirer.

Respectfully yours, HENRY REIMISH.

WASHINGTON, Sept. 3.

Herald's special.—The statement that Commissioner Ould has terminated negotiations for the exchange of prisoners, by positive declaration that white officers of colored regiments will not be released or exchanged, is premature. Negotiations are still in progress, and no definite result yet reached. In the meantime no exchange of enlisted men has yet taken place, but both parties continue to release or parole small numbers of this class of prisoners.

Notwithstanding the vigilance of the Potomac flotilla, smuggling is carried on to a considerable extent. A flat boat has been engaged some time in transporting contraband goods across the river at Deep Hole farm, between Occoquain and Dumfries, from which point articles are hastily removed into the interior, and sold at most exorbitant rates. At Dumfries, the landing place, common salt is sold at $12 per bushel.

A headquarter's dispatch to the Times says guerrilla operations continue. The last depredation was from the vicinity of Harwood Church, Stafford's store and Dumfries. A mail party of eight were attacked on the road between Warrenton Junction and Harwood one day last week, and four of them, including the mail, captured.

A member of Gen. Kilpatrick's body guard was killed a few days ago by guerrillas, when the whole body guard obtained permission to hunt guerrillas. They have been gone three days, and their success may be estimated by a number of guerrilla carcasses suspended as scare crows from tall trees on their line of march.

CINCINNATI, Sept. 4.

Quite an excitement was created in Dayton last night over the arrest, by the military authorities, of two men named Huber and Spelman, for the murder of Lt. Waterman. The civil authorities demanded them for trial upon a writ of *habeas corpus*, but the provost marshal, under instructions from Gen. Cox, refused to surrender them. The militia have been called into requisition to take them by force.

The Commercial's special from Rosecrans' army represents all quiet; 40 or 50 deserters come in daily since the army crossed the river. The bridge at Bridgeport is repaired and trains crossing. The country south of the river is rough and roads bad. The rebel force still occupy a strong position. Deserters think we will have no fight at Chattanooga.

AFTERNOON DISPATCHES.

NEW YORK, Sept. 4.

The schooner Etta, lately arrived from Nassau with pine apples, proves to be the pirate Retribution, and was seized yesterday.

The steamer City of the South, from Charleston bar, arrived to-day. Also the steamer Union, 31st. On Monday the iron-clads moved towards Sullivan's Island abreast of Fort Moultrie, and opened fire. The fort replied, assisted by the battery on Sullivan's Island, Wagner and Gregg.—Gilmore's battery kept firing at Wagner. Sumter was silent, though the rebel flag waved over the ruins. The result of the attack was unknown when the steamer left. Passengers aboard the Union report that Wagner was silenced and the iron-clads passed by Fort Moultrie without hindrance from Wagner.

An ensign of the fleet, while on night duty, had went up to the city without finding any appearance of obstructions. The impression prevails that our fleet could pass up to Charleston by a dash.

FORT MONROE, Sept. 3.

Special correspondence of the Baltimore American says the steamer Spaulding arrived from off Morris Island Monday noon. Stormy weather for two days had checked the naval operations. Every thing was in readiness to continue the attack as soon as the weather was favorable. When the Spaulding left the Weehawken was shelling Ft. Gregg. The rebels raised another gun on the ruins of Sumter, Saturday, but on Sunday Gilmore's batteries dismounted it, damaging the front of the parapet. Operations go on more vigorously. The approaches are so close to Wagner that the combatants throw shell and grenades at each other. Wednesday, we drove the rebels from the rifle-pits on the left, advancing the line, capturing 78 prisoners. Dahlgren is confident of success.

ST. LOUIS, Sept. 4.

The Republican's Memphis dispatch of 1st says: New Orleans dates to the 28th have been received. The expedition of Mississippi river steamboats, for some point on the Gulf, is nearly ready; will start in a few days. Gen. Grant was to have left Vicksburg for New Orleans on the 31st.

NEW YORK, Sept. 4.

Flour 5a10c better and more doing at 4.90a5,10 for extra state; 5,25a5,45 for R H O. Wheat dull, unchanged, private accounts from England very unfavorable. Corn opened unchanged and closed 1a2c lower, at 73a75. Oats 2c better at 60a65. Whisky firm at 50. Stocks very unsettled, some better though closing lower, others very irregular. The Copperheads and the Soldiers.

The copperheads are trying to devise ways and means to get a part of the soldiers' votes. Some of their papers are suggesting that documents should be prepared for circulation in the army, to show that the attitude of the democratic party is a loyal and proper one. As if such flapdoodle would deceive anybody! Among other devices, we understand they have published a lithograph—it ought to have been copperplate—likeness of Mr. Palmer, with the following sentence under it:

Resolved, That we are proud of the gallantry and devotion of our fellow-citizens serving in the land and naval forces of the United States, and sympathize deeply with all their sacrifices of life, health and comfort. End as the war may, their place in history is one of glory.

We would suggest a far more appropriate inscription. If the lithograph is for circulation among the soldiers let it bear as an inscription the following:

[Extract from the Wisconsin Assembly Journal, Sept. 23, 1862.]

"No. 11, S., A bill to enable the militia and volunteers, when in the military service of the United States or of this state to exercise the right of suffrage,

"Was read a third time.

"The question being, Shall said bill be concurred in?

[Here, in order to save room, let it be briefly stated that four pages of the assembly journal are occupied by motions to adjourn, for calls of the house, and similar motions, designed to prevent action on the bill—that all these motions were made by democrats, and were voted for by H. L. PALMER—and that H. L. PALMER spoke in opposition to the passage of the bill for two hours and a quarter. Then let the quotation from the official record be resumed:]

"The main question being, shall said bill No. 11 be concurred in,

"Said bill was concurred in by the following vote:

"Messrs. Adams, Arnold, Bannister, Barnes, Barron, Bassett, Bates, Beardsley, Bean, Bowman, Braadon, O. Brown, Chandler, Combs, Crosby, Dockstader, Field, Guernsey, Hall, Hammond, W. E. Hanson, S. Hanson, Hather, Howard, Hubbard, Johnson, Latham, Leonard, McDill, Matts, Miller, Mills, Moore, Morrow, Newick, Nichols, E. Palmer, Pope, Reed, Rounseville, Sanderson, Stamm, Starks, Stevens, Stoddard, Stuntz, Taylor, Thompson, Upham, Vivian, Webb, and Williams—52.

"Those who voted in the negative were

"Messrs. Abert, Barry, Boyd, G. W. Brown, Butler, Canill, Catton, Coles, Dutcher, Elliot, Ellis, Finger, Gage, Gifford, Gregory, Grillin, Horflinger, Hogan, Hoppock, Jennings, Kirchloff, McCollum, McLean, Malov, Meyer, Piatto, Rogan, Salter, Sanborn, Semmon, Schletz, Shumway, Stowell, H. S. Thomas, J. E. Thomas, Tripp, Venderpool, Wadsworth, Wilson, and Mr. Speaker [H. L. PALMER]—40."

To this it might be added that every man who voted against soldiers' suffrage was a democrat.

The Jesuitic lineaments of Mr. Palmer, with this record attached, would undoubtedly make an impression upon the minds, of our gallant Wisconsin boys in the field.—*Madison Journal.*

Dispatch to the New York Tribune.

WASHINGTON, Aug. 30.

It is rumored among politicians in Richmond that Robert M. T. Hunter will be sent to Mexico, as the representative of the southern confederacy, in order to prepare the way for an offensive and defensive alliance between the emperor of that country and the government of Richmond. It is said that this gentleman has received instructions for the immediate recognition of the future emperor of Mexico, in return for which, it is hoped, his majesty will be led to recognize the southern confederacy.

Mr. Robert M. T. Hunter is now at Paris, where he was sent nearly two months ago by his government, with a special mission to the emperor of the French. The principal object of his visit there is, however, to act conjointly with Mr. Slidell, in all matters appertaining to the Mexican question; to give his support to the action of France, Austria, England, or Spain, having the defeat of the Monroe doctrine for its end, and to promise the co-operation of the rebel cabinet in all measures tending to counteract the policy of the federal government in the Mexican question.

Mr. Hunter will leave for Europe and will accompany the emperor of Mexico to his capital as soon as the candidate for that throne shall assume the government of his dominion.

THE WAY GILLMORE'S MARSH BATTERY WAS CONSTRUCTED.—A correspondent says: "The famous marsh battery, which is one of the many proofs of Gen. Gillmore's daring and energy, to the surprise of the Charlestonians, commands their houses and homes, to say nothing of the other ordnance. The battery is in the midst of the marsh, 2,000 yards in advance of Morris Island—was located at night by the men making their way to it on their stomachs. A path, two planks wide, was then constructed, which was hid from rebel observation by the marsh grass. Planks three inches thick were driven down as the substratum; on this were laid several layers; on them logs, and on them boards. In the meantime the ordnance was floated up by night, and sand bags innumerable, from every direction—and one night, a large force piled them up, and, to the surprise of the rebels, a dangerous battery greeted their eyes next morning, in dangerous proximity, as if evoked by the mysterious hand of magic."

Three Things Together.

I. Hon. John Sherman presents the issue made in the nomination of Vallandigham, in the most forcible light. "Here is a convicted traitor," he says, "nominated as the democratic candidate for governor of Ohio. He is opposed to the government; opposed to the war; will not vote a man to suppress the rebellion, and will not vote one dollar to sustain our soldiers. And yet the democratic party calls upon the people to elect this man to be the commander-in-chief of the army and navy of Ohio. And this in the midst of a war with the enemies of the country who he was convicted of aiding."

II. At a meeting of the democratic leaders of the party in Milwaukee, held in June last, the only object of which was to annunciate the position of the party, it was resolved in regard to Vallandigham, "that waving all discussion of Mr. Vallandigham's peculiar views, we hold his nomination by the democracy of Ohio for the office of governor of that state, to have been a noble act of popular assertion of popular right against military despotism. We cordially hope to see the disgraceful assault upon American rights in his person, culminate in his election to the highest office of his state."

III. In the democratic state convention, held last week, it was

Resolved, That we re-affirm and adopt the address issued by the state convention held September 3d, 1862, *and the resolutions of the mass convention held in Milwaukee, June 25th, 1863, as the settled doctrine of the democratic party of this state.*

Putting the above together makes a clear case that the democratic party of Wisconsin sympathize with, and endorses Vallandigham. Doubtless if they had such a blessed martyr in the state, they would delight to rally around him.—*Commonwealth.*

HEIMSTREET'S
INIMITABLE HAIR RESTORATIVE.

It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance, impaired by age or disease. All *instantaneous dyes* are composed of *lunar caustic,* destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heimstreet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling off, eradicates dandruff, and imparts health and pleasantness to the head. It has stood the test of time, being the original Hair coloring, and is constantly increasing in favor.—Used by both gentlemen and ladies. It is sold by all respectable dealers, or can be procured by them of the commercial agents, D. S. Barnes & Co. 202 Broadway New York. Two sizes, 50 cents and $1

Messrs. Editors:—I had occasion to stop at Whitewater, Wisconsin, a few days ago, and stopped with Mr. I. Kinney of the Cortland House, and being wounded in the service of my country, I found Mr. Kinney a friend, and his house really a travelers' home, and when I left to come to the town of Janesville, I could not even persuade Mr. Kinney to take one cent for my board, and in justice to a loyal landlord, I make this statement, hoping all who call at Whitewater will call on Mr. Kinney of the Cortland House. PROF TURNER'S ENGLISH AND FRENCH ACADEMY.—This institution, which is located in this city, will commence its academic year on the 22d of September, according to an advertisement which will be found in another column. It is a family boarding school where children and youth are educated, and at the same time have the benefit of home influences. Particular attention is given to modern languages, especially the French, which is the language of Prof Turner and his family, and pupils residing with him soon acquire that practical knowledge of it which can be obtained in no other way. This school has been in successful operation in this city for a considerable length of time, and has given general satisfaction to its patrons. We can heartily recommend it to the patronage of all who desire to place their children in the care of competent teachers and those who look carefully to the moral and social training of the young persons placed in their charge.

To Horse Owners.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES is unrivalled by any. In all cases of Lameness arising from Sprains, Bruises or Wrenching, its effect is magical and certain. Harness or Saddle Galls, Scratches, Mange, &c., it will also cure speedily.—Spavin and Ringbone may be easily prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a radical cure. No case of the kind, however, is so desperate or hopeless but it may be alleviated by this Liniment, and its faithful application will always remove the Lameness, and enable the horse to travel with comparative ease.

Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness, will effectually prevent those formidable diseases mentioned, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

NATIONAL BANKING ASSOCIATIONS.

COMMUNITIES, and CAPITALISTS now contemplating the formation of National Banking Associations, under Secretary Chase's Bill, passed at the last session of Congress, are reminded that the 5-20 Loan, now for a limited period to be obtained at par, may after the first of August be withdrawn from the market.

The improved condition of Military affairs and the constant succession of Victories, together with the completion of the preparations for the issue of the Four Hundred Millions of Legal Tender Interest bearing notes, or Treasury Notes, renders the issuing of further long or permanent Loans at present, exceedingly doubtful.

The Loans of the Government,

maturing in 1881, are now selling at six per cent. premium. These would advance to 10 or 15 per cent. premium, if the Secretary of the Treasury should discontinue the sales of the 5-20's; and the 5-20's themselves would soon command a handsome premium, should the demand for Government loans, as the basis for banking or for investment, be at all active. It is possible that the Secretary of the Treasury may receive subscriptions to the 5-20 Loan for a longer period,—should there be any delay in the preparation of the notes for the supplying of the Treasury with funds, or should he in view of the manifest benefits to the country from the present popular mode of distributing the loans of the nation among the *people*—or to encourage the formation of the New Banks decide it to be wise and judicious to further extend the time of subscriptions to the 5-20's at par. His views and intentions on the subject, of course, are unknown; therefore, the safest and wisest course is to subscribe at once, whilst a six per cent. bond, with the interest and principal payable in GOLD, can be had at par.

It will afford me pleasure to furnish full information in regard to the formation of the National Banks, and the necessary steps to be taken. Printed documents relative thereto will be furnished, at Washington, on application to Hon. Hugh McCullough, Comptroller of the Currency, or by the undersigned.

Messrs. Editors:—I had occasion to stop at Whitewater, Wisconsin, a few days ago, and stopped with Mr. I. PROF. TURNER'S ENGLISH AND FRENCH ACADEMY.—This institution, which is located in this city, will commence its academic year on the 22d of September, according to an advertisement which will be found in another column. It is a family boarding school where children and youth are educated, and at the same time have the benefit of home influences. Particular attention is given to modern languages, especially the French, which is the language of Prof. Turner and his family, and pupils residing with him soon acquire that practical knowledge of it which can be obtained in no other way. This school has been in successful operation in this city for a considerable length of time, and has given general satisfaction to its patrons. We can heartily recommend it to the patronage of all who desire to place their children in the care of competent teachers and those who look carefully to the moral and social training of the young persons placed in their charge.

To Horse Owners.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES is unrivaled by any. In all cases of Lameness, arising from sprains, Bruises or Wrenching, its effect is magical and certain. Harness or Saddle Galls, Scratches, Mange, &c., it will also cure speedily.—Spavin and Ringbone may be easily prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a *radical cure*. No case of the kind, however, is so desperate or hopeless but it may be alleviated by the Liniment, and its faithful application will always remove the Lameness, and enable the horse to travel with comparative ease.

Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness, will effectually prevent those formidable diseases mentioned, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

OFFICE OF JAY COOKE,

General Subscription Agent

FOR 5-20 LOAN,

No. 114 South Third St., Philadelphia.

NATIONAL BANKING ASSOCIATIONS,

COMMUNITIES, and CAPITALISTS now contemplating the formation of National Banking Associations, under Secretary Chase's Bill, passed at the last session of Congress, are reminded that the 5-20 Loan, now for a limited period to be obtained at par, may after the first of August be withdrawn from the market.

The improved condition of Military affairs and the constant succession of Victories, together with the completion of the preparations for the issue of the Four Hundred Millions of Legal Tender interest bearing notes, or Treasury Notes, renders the issuing of further long or permanent Loans at present, exceedingly doubtful.

The Loans of the Government,

maturing in 1881, are now selling at six per cent. premium. These would advance to 10 or 15 per cent. premium, if the Secretary of the Treasury should discontinue the sales of the 5-20's; and the 5-20's themselves would soon command a hand-some premium, should the demand for Government Loans, as the basis for banking or for investment, be at all active. It is possible that the Secretary of the Treasury may receive subscriptions to the 5-20 Loan for a longer period,—should there be any delay in the preparation of the notes for the supplying of the Treasury with funds, or should he in view of the manifest benefits to the country from the present popular mode of distributing the loans of the nation among the *people*—or to encourage the formation of the New Banks—decide it to be wise and judicious to further extend the time of subscriptions to the 5-20's at par. His views and intentions on the subject, of course, are unknown; therefore, the safest and wisest course is to subscribe at once, whilst a six per cent. bond, with the interest and principal payable in GOLD, can be had at par.

It will afford me pleasure to furnish full information in regard to the formation of the National Banks, and the necessary steps to be taken. Printed documents relative thereto will be furnished, at Washington, on application to Hon. Hugh McCulloch, Comptroller of the Currency, or by the undersigned.

GENERAL ORDER No. 1

TO THE PEOPLE OF WISCONSIN.

The best bought, best selected, best assorted and most extensive stock of

DRY GOODS

ever offered in Janesville, is now open to

PUBLIC INSPECTION

at the

Great Mart of McKey & Bro.

WE have taken advantage of the recent unparalleled fall in the price of gold, E. McKey having resided almost exclusively in New York for the past three months, was on hand and

BOUGHT LARGELY

of first class importers, who, under the influence of the panic,

Sacrificed Many Desirable Goods

at 50 cents on the dollar of the prices ruling one week previous. The public is aware that the cause of the great advance in the price of Imported Goods was the enormous premium on gold, to buy exchange and pay duties, that having declined from 74 to 35 per cent, or about 40 per cent on former rates, and we having been on the spot when it took place, went in for

Piles of Goods.

the purchase of one of which would Gobble up the entire resources of many of the so-called Merchants who Blow, Hurrah and Clap their hands before the public.

But we believe that sensation advertisements are played out, and that it is scarcely necessary to inform the public that those who are compelled to buy goods in small lot, and live as it were from hand to mouth, cannot pretend to

COMPETE WITH US!

In proof of which we offer the following:

200 ps full yd wide New York Mills sheetings,	30c per yd
200 ps Portsmouth unbleached factory,	25c "
500 ps Spring Delaines,	25c "
500 ps new Spring Delaines	31½c "
300 Balmoral Skirts, 4 yds wide, 1¾ yds long	$2 50
100 ps A T Stewart fine printed French Jaconets,	31½c

300 Ps Fine French Organdies at 25c per yd

which were bought under peculiar circumstances, the same quality having been sold at wholesale last week in New York at 40c per yard. None of the above will be sold to neighboring speculators, our legitimate trade alone supplied.

Our purchases of nearly a year ago were so enormous that we still

HAVE MANY PACKAGES

of heavy and fine bleached and unbleached Sheetings and Shirtings, Merrimac, Sprague and other Prints, Shirtings, Stripes, Tickings, Denims, Cottonades or Summer wear, &c, &c, all of which we will now open and dispose of at prices which will make the small fry stand aside, and still further add to the Brilliant and Triumphant success which has crowned our efforts for the last fourteen years.

We shall still sell our justly celebrated and superior

HOOP SKIRTS

at old prices. Our stock of

Hosiery, Gloves & Embroideries

will be found the largest and most comprehensive in the state. Ladies will here find a full line of hand made Tatting, all widths, Collerette a La Eugene, Border Im. eratrice, Linen Collars, plain and with ruffled, embroidered, colored and mourning trimming.

IN CLOAKINGS AND SACKINGS

We shall exhibit 100 pieces Middlesex and Washington all wool, most desirable shades, plain and mixed. Our stock of all wool, silk warp and demett

FLANNELS

for spring and summer wear is full and well assorted.

SHAWLS! SHAWLS!

We have on the road and will shortly receive Five Hundred of the most fashionable for spring wear.

BLACK SILKS,

New Broom Black Silks, (to be had only of us,) also English Crown, Sumblime and Bischoff do do.

We close out from one of the heaviest importers in New York, 600 pieces heavy

GERMAN REPPS,

worth 50c per yard, which to those who buy to keep over, or for immediate wear, we offer as a drive at 25c per yard.

In Our Millinery Department

will be found everything desirable, choice and new, in Bonnetts and Flats of the fashionable Eugene, Alexandrina and Alboni styles; 1200 dozen best made of

SHAKER HOODS,

white and colored, all sizes. Ruches, black, white and magpie; new style frames; crown lining; cape lace; fine French flowers, rose buds, &c., &c. The usual liberal inducements to the trade.

OUR CLOTHING STORE

is heavily stocked with all the new and desirable styles of

GENT'S GARMENTS.

We have also a well selected line of Harris, Woodstock and other well known brands of

Fancy Cassimeres,

which if desired, we shall

MAKE UP TO ORDER

in the first style of fashion.

In conclusion, we cordially invite the public, for its own satisfaction, to examine every stock in the city before looking at ours. But we would also caution every purchaser not to invest one dime in Dry Goods before calling at the

SINGER & CO.'S

STANDARD MACHINES

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $70.

Singer's Letter A Machine,

IS the best Machine in the world for Family Sewing and Light Manufacturing purposes; Price, (with hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'s GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection*. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

GENERAL ORDER No. [1]

TO THE PEOPLE OF WISCONSI[N].

The best bought, best selected, best assorted and most extensive stock of

DRY GOODS

ever offered in Janesville, is now open to

PUBLIC INSPECTION

at the

Great Mart of McKey & Bro.

WE have taken advantage of the recent unparalleled fall in the price of gold, E. McKey having resided almost exclusively in New York for the past three months, was on hand and

BOUGHT LARGELY

of first class importers, who, under the influence of the panic,

Sacrificed Many Desirable Goods

at 50 cents on the dollar of the prices ruling one week previous. The public are aware that the cause of the great advance in the price of imported Goods was the enormous premium on gold, to buy exchange and pay duties. The gold having declined from 74 to 38 per cent, or about 50 per cent., we were on the spot when it took place, and went in for

Piles of Goods.

the purchase of one of which would Gobble up the entire resources of many of the so-called Merchants who Blow, Hurrah and Clap their hands before the public.

But we believe that sensation advertisements are played out, and that it is scarcely necessary to inform the public that those who are compelled to buy goods in small lot, and live as it were from hand to mouth, cannot pretend to

COMPETE WITH US!

In proof of which we offer the following:

which were bought under peculiar circumstances, the same quality having been sold at wholesale last week in New York at 44c per yard. None of the above will be sold to neighboring speculators; our legitimate trade alone supplied.

Our purchases of nearly a year ago were so enormous, that we still

HAVE MANY PACKAGES

of heavy and fine bleached and unbleached Sheetings and Shirtings, Merrimac, Sprague and other Prints, Shirtings, stripes, Tickings, Denims, Cottonades for Summer wear, &c., &c., all of which we will now open and dispose of at prices which will make the small fry stand aside, and still further add to the Brilliant and Triumphant success which has crowned our efforts for the last fourteen years.

We shall still sell our justly celebrated and superior

HOOP SKIRTS

at old prices. Our stock of

Hosiery, Gloves & Embroideries

will be found the largest and most comprehensive in the state. Ladies will here find a full line of hand made Tatting, all widths, Collerette a La Eugene, Bordure Imperatrice, Linen Collars, plain and with ruffled, embroidered, colored and mourning trimming.

IN CLOAKINGS AND SACKINGS

We shall exhibit 100 pieces Middlesex and Washington all wool, most desirable shades, plain and mixed. Our stock of all wool, silk warp and domett

In Our Millinery Department

will be found everything desirable, choice and new, in Bonnetts and Flats of the fashionable Eugene, Alexandrina and Alboni styles; 1200 dozen best made of

We have also a well selected line of Harris, Woodstock and other well known brands of

In conclusion, we cordially invite the public, for its own satisfaction, to examine every stock in the city before looking at ours. But we would also caution every purchaser not to invest one dime in Dry Goods before calling at the

SINGER & CO.'S

STANDARD MACHINES

Well known to be the best for

Manufacturing Purposes;

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $70.

Singer's Letter A Machine,

IS the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'s GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.
